About CryptoBite Coin

- CryptoBite Coin – an altcoin on the blockchain technology—promises to become prominent and an alternative to the major cryptocurrencies such as Bitcoin, Ethereum and Ripples.
- This is another form of currency with digital footprint, that is a cryptocurrency, created by complex mathematical computations and all transactions are verified by millions of users and stored in the public ledger for transparency.
- Like other major cryptocurrencies, this coin could be stored in both offline wallets such as hardware (Computer Drives and USB) and online wallets such as cloud storages, smartphones.
- CryptoBite Coin possesses values similar to the physical gold bar and aims to be listed in popular exchanges. Also, through Integrated Developers’ Option (API documentation), this cryptocurrency aims to be a payment gateway for E-Commerce stores online worldwide.

The Project supported by Cryptobite Coins is the **DECENTRALIZED BOOKING SYSTEM**. This would be aimed towards making an innovative booking system that is decentralized in the following aspects:

1. Air-ticket purchase.
2. Hotel booking.
3. Domain booking.
4. Event ticket.
5. Sports Game ticket just to mention a few.

Our CryptoBite Marketplace will connect retailers and clients in an exceptional way with the Primary Objective which is to remove third-parties and middlemen that are extremely dangerous to the growth of businesses. The platform will also help to encourage the business resourcefulness.
